

# Lukas Herajt

AI Engineer · RAG · Agents · MCP | lukasherajt@gmail.com | Sioux Falls, SD

## HEADLINE

Production AI engineer focused on retrieval-grounded agent platforms, eval harnesses, and the routing/fallback policies that keep LLM features reliable under real traffic. 5+ years shipping software; 3+ years on LLMs in production.

## EXPERIENCE

**AI Engineer (Contract), Title** — Mid-2025 – Present

**AI Software Engineer, American Board of Anesthesiology** — 2022 – 2025

**Software Engineer, Mid Atlantic Distribution** — 2020 – 2022

**Software Engineer, Hiretalk** — 2020

## CORE STACK

Anthropic Claude, OpenAI, MCP, LangChain, Python, FastAPI, Pinecone, FAISS, OpenSearch, structured output, evals.

## FLAGSHIP PROJECTS

- RAG Search Platform — hybrid retrieval reducing hallucinations across internal tools.
- Model Router — latency/cost-aware routing across Claude and GPT-4 with circuit breakers.
- MCP Tools — protocol servers exposing internal APIs to Claude agents with audit logging.
